Academic Qualifications

Year	Educational Qualification	Institute	CGPA / %
2021-2025	B.Tech (CSE)	Manav Rachna International Institute of Research & Studies	7.0 CGPA
2020	CBSE(XII)	Rawal International School	80.6%
2018	CBSE(X)	Rawal International School	79.6%

Technical Skills

- **Programming Languages:** Java,SQL, HTML, CSS, JavaScript
- **Databases:** MySQL, PostgreSQL
- **IDEs & Code Editors:** IntelliJ IDEA, VS Code

Work Experience and Internships

- **Intern – Edunet Foundation** (July 2024 – August 2024)
 - Developed **BookNook**, an AI-based hotel booking chatbot using **IBM Watson Assistant**, capable of handling bookings, cancellations, and customer queries.
 - Learned to work with **IBM Cloud**, deploying and managing the chatbot through cloud services.
 - Explored **Machine Learning models** and how they are applied to improve chatbot accuracy, user intent detection, and contextual response generation.
 - Gained hands-on experience with **NLP, NLU, and LLMs (Large Language Models)** to enhance the chatbot’s understanding and natural interaction capabilities.
- **Intern – GYMMI Startup** (June 2023 – August 2023)
 - I worked on developing and maintaining responsive web pages for GYMMI’s official website using **HTML, CSS, JavaScript, and ReactJS**. The goal was to enhance user experience with a clean and mobile-friendly design.
 - I built reusable React components for key sections like navigation, forms, and content display. This modular approach made the codebase easier to manage and scale.
 - I collaborated with team members using **Git** for version control and gained hands-on experience in front-end development workflows, design implementation, and debugging.

Projects

- **SpendWize Finance Tracker**
 - Developed **SpendWize**, a SaaS platform for tracking income, expenses, and transactions with an interactive dashboard and CSV import functionality.
 - Built a **scalable backend using Hono.js** with PostgreSQL and integrated **secure user authentication** through Clerk.
 - Deployed the full-stack application on **Vercel** with a custom domain: www.spendwize.live.
- **MRIIRS University ChatBot**
 - Built a university chatbot using **Python** for backend logic and **JavaScript, HTML, CSS, and Bootstrap** for a responsive front-end.
 - Designed a clean, user-friendly interface and implemented dynamic content updates without full page reloads.
 - Ensured **responsive design** across devices using Bootstrap and added interactive functionality through JavaScript.
- **Secure Password Checker**
 - Created a security-focused Python app to **check passwords against known data breaches** using the “Have I Been Pwned” API.
 - Applied hashing techniques to protect password inputs and **compare hashes against a compromised password database**.
 - The tool alerts users of **compromised passwords**, helping them avoid potential security risks.

Certifications

- Java Data Structures and Algorithms Masterclass
- Programming Foundations: Object-Oriented Design
- Ethical Hacking: Introduction to Ethical Hacking
- Complete Python Developer : Zero to Mastery
- Cloud Computing Fundamentals
- Getting Started with Enterprise-grade AI

Interests & Hobbies

- YouTube
- Content creation
- Editing
